Student declaration document

Please complete this document honestly.

Full name: Student number: Course

Digital Tool	What did you use it for?	What percentage of the submitted work was created by the tool?
Google Translate/ ChatGPT/Grammarly/ DeeplWrite/Microsoft Word spell checker…	*To translate 10 words in the introduction and conclusion form French to English*	*5%*

Have you used any other tools or has anyone else helped you with this work? Please declare them below.

Note: You cannot hand in translated documents or something written by AI. This will result in a 0 grade. It must be written by you in English but some small assistance from typical tools like a spell checker, a synonym dictionary etc is allowed. The written projects are made to test your writing score so you must submit your work. Copying and pasting text from the internet is plagiarism and results in a 0 grade. If you use any quotes or charts or information from published sources it must be acknowledged via the correct referencing system.

AI tools can be used to generate ideas but they cannot be used to write your work for you. This kind of writing is obvious to teachers and when it does not correspond to your level it is clear you cheated and you risk failing the course. The written assignments are your chance to show your level and also that you are capable of doing your own work outside of class.

Any student who has test score differences of more than 1 CEFR level will have to justify it and risk a 0 grade.
