

## LES CAHIERS DE L'INSEP

Entre 1992 et 2010, sont parus dans la revue des « *Cahiers de l'INSEP* » quarante-quatre numéros, dont deux hors-série. La revue a été créée pour assurer la visibilité des avancées et débats menés par l'INSEP lors des « *Entretiens de l'INSEP* », ayant lieu plusieurs fois par an, dans les domaines techniques, scientifiques et pédagogiques liés au sport.

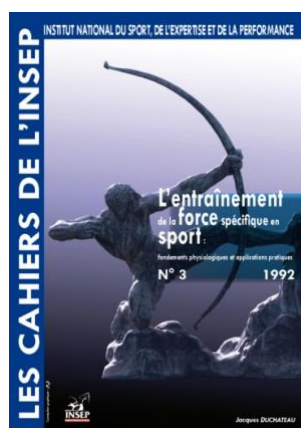

Initialement structurée autour de la conférence d'un seul expert, dans une thématique aux contours stricts, assortie d'un ensemble de questions/réponses, la revue est devenue nettement plus collective et étoffée à partir du numéro double 12-13. Tous les entretiens n'ont pas fait l'objet d'une publication écrite. La revue est publiée en français et/ou en anglais, et traite de la thématique du sport de haut niveau principalement en France, mais aussi un peu en Europe et à l'internationale. Cette revue s'adresse aux professionnels du sport de haut niveau.
